

Indigenous Issues Study Group Report for 2006-2007

The IAG Indigenous Issues Study Group contributed significantly to the development of the new International Geographical Union Commission on Indigenous Peoples Rights and Knowledge and the sessions at the IGU Regional Conference in Brisbane that celebrated its establishment.

An international editorial group produced the special issue of *Geographical Research* based on those sessions.

In addition, the study group has organised sessions at the Melbourne meeting.

Office bearers 2006-2007 (stepping down at Melbourne meeting):

Co-convenors

Dr Sandra Suchet-Pearson (Macquarie University)

A Prof Richie Howitt (Macquarie University)
